

New MedDRA Browsers Coming Soon

Dear MedDRA Subscriber:

In 2009, the MSSO will make available two MedDRA browsers to all MSSO subscribers as a part of their existing MedDRA subscription.

MedDRA Desktop Browser 3.0

As previously announced, the MSSO has been working on an updated version of the MedDRA Desktop Browser. This update will retain the same simple user interface while improving the search function, adding a history function, and improving several existing capabilities. The updated MedDRA Desktop Browser will be available for download by subscribers by mid-2009.

Web-based MedDRA Browser

The web-based MedDRA Browser, a product of Cerner, will be made available to all MSSO subscribers in mid-2009. The Web-based browser will enable all MSSO subscribers to access MedDRA via a web-based tool and access any version or EU translation of MedDRA. Please see the attached press release for more details.

The MSSO ensures that both of these MedDRA browser tools will be very useful. If you have any questions about either browser, please contact the MSSO Help Desk at mssohelp@ngc.com.

Sincerely,

MedDRA MSSO
