[23 April: Advanced Coding: Coding Conventions and the MedDRA PTC Document](#)

Düsseldorf, Germany

[23 April: Coding with MedDRA](#)

[24 April: MedDRA: Safety Data Analysis and SMQs](#)

Princeton, NJ, US

[19 May: Coding with MedDRA](#)

[20 May: MedDRA: Safety Data Analysis and SMQs](#)

Additionally, the MSSO is pleased to announce the MedDRA Versioning Webinar

This 1.5 hour webinar is designed to provide subscribers with an understanding of the timing and extent of MedDRA version updates and the impact of MedDRA version updates within an organization.

The MedDRA Versioning webinar:

- Provides an overview of the background and rationale for versioning and describes the resources available to assist with updates
- Discusses the timing of updates for both clinical trials and single case reports, together with the various recoding options defining the extent of an update
- Describes the impact of updates on coding and analysis within organizations, using practical examples

Click on the link below to register for the 6 May 2009 session:

[6 May: MedDRA Versioning webinar](#)

Time: 10:00AM – 11:30AM US Eastern Daylight Time
Cost: \$300 per log-in

To view the entire schedule, please click on [Training Schedule](#).

Thank you,

MedDRA MSSO
