

MedDRA Training Schedule Summer Webinars

Dear MedDRA User:

A webinar is an informative and economical way to obtain MedDRA training. The MSSO is offering two webinar topics in July and August, Introduction to MedDRA and What's New in MedDRA Version 12.1.

If you are interested, please register below via the provided links.

Introduction to MedDRA webinar – is a two hour course available on the 29 July. This course is designed to provide a basic understanding of MedDRA. It will focus on the scope, structure, characteristics, maintenance, and usage of MedDRA. It will also focus on MedDRA's applications, an overview on coding, data retrieval and data analysis, and Standardised MedDRA Queries (SMQs).

What's New in MedDRA Version 12.1 webinar – two sessions are available on 26 August.

The What's New webinar will cover the changes in MedDRA Version 12.1 and other MedDRA developments:

- What's New with MedDRA v12.1
 - Abbreviated and non-abbreviated virus name terms
 - Vaccine terms
 - SMQ term scope changes
- MedDRA Chinese translation
- Device terms review
- MedDRA change requests and justifications
- Blue Ribbon Panel - MedDRA Versioning
 - MedDRA versioning analysis tool
- MedDRA desktop browser
 - MedDRA history file
- MSSO Web site upgrade
- Free downloadable MedDRA training modules
- CTCAE revision

Click on one of the sessions below to register for this comprehensive review of the latest MedDRA topics:

[Session 1 – 26 August 2009](#)
[0930 – 1100 US Eastern Daylight Time](#)

[Session 2 – 26 August 2009](#)
[1400 – 1530 US Eastern Daylight Time](#)

If the times for the What's New webinar are not convenient, please contact the MSSO Help Desk (mssohelp@ngc.com) to download the recorded version of the webinar for \$250.

Please review the full MSSO training [schedule](#) for other training dates and locations.

Thank you,

MedDRA MSSO
