

MedDRA History File

Dear Subscriber:

The MedDRA history file, including changes made in MedDRA Version 12.1, will be part of the download for the upcoming MedDRA release on 1 September 2009. As in the past, your User ID, Password and Unzip Password are required for the download.

The MedDRA history file is designed to be imported separately into the new MedDRA Desktop Browser 3.0. After the MedDRA history file has been imported into the new MedDRA Desktop Browser 3.0, an updated history record is available for each MedDRA term. The history display (see screenshot below) indicates the version when a term was added or modified in MedDRA.

To load the MedDRA history file, please perform the following steps:
