

MedDRA MSSO Web Site Redesigned and Updated

Dear MedDRA Subscriber:

The MSSO is pleased to announce the redesign of the MedDRA MSSO Web site. Our objective of the redesign was to improve your ability to navigate the site and to make it easier to find what you want on the site. Towards this end, the site has new navigation for easier and a more intuitive use. The overall look-and-feel of the site has also been updated. You will continue to use your existing Subscriber ID and password to access subscriber only sections of the site.

A Google™ search bar has been added at the top of every page. The Google search bar searches only for information on the MedDRA MSSO Web site. This search bar ensures that you find information, not only just on the Web pages, but also within documents, spreadsheets, presentations, and PDF files in the MSSO Web site. The MSSO is confident that you will find this utility to be a great enhancement to the site.

Please visit us at www.meddramsso.com and send your feedback to MSSO Help Desk at MSSOhelp@ngc.com.

Thank you,

MedDRA MSSO
