

MedDRA Training Schedule July – September 2010

Dear MedDRA User:

Many MedDRA coders have learned to code in MedDRA while ‘on-the-job.’ A recent MSSO MedDRA training attendee made the following observation:

“I have been using MedDRA for some time but never actually took a course. You provided excellent information that was practical, applicable to my everyday work and provided techniques that have enhanced my searches for much more accurate output.”

Refresh your MedDRA coding knowledge and skill with the MSSO’s team of MedDRA experts! Several opportunities are available. See below for details and to register.
