

## Updated “Points to Consider” Documents Based on MedDRA Version 13.1 Are Now Available

Dear MedDRA User:

On behalf of the ICH M1 “Points to Consider” Working Group, the MSSO is happy to announce the posting of updated versions of the “MedDRA Term Selection: Points to Consider” and the “Data Retrieval and Presentation: Points to Consider” (PTC) documents.

The documents have undergone a beginning-to-end rewrite to address document format issues, to update information, to improve readability, and to generally streamline the document. In addition, examples in both updated documents reflect changes based on MedDRA Version 13.1.

The updated documents can be found at  
[http://meddramsso.com/subscriber\\_library\\_ptc.asp](http://meddramsso.com/subscriber_library_ptc.asp)

As always, the MSSO welcomes your feedback on both “Points to Consider” documents. Please submit your comments to [mssohelp@ngc.com](mailto:mssohelp@ngc.com).

Thank you for your continued support.
