

Request for Complex Change Proposals

Dear MedDRA Subscriber:

The MSSO invites you to submit proposals for complex changes for MedDRA Version 14.0, which will be released on 1 March 2011. Complex changes are changes or additions to the High Level Term (HLT), High Level Group Term (HLGT), and System Organ Class (SOC) levels of the terminology. All proposals must be submitted via WebCR (<https://mssotools.com/webcr/>) or to MSSORequest@ngc.com using the [Subscriber change request form](#) no later than **21 May 2010**.

All proposed complex changes will be compiled and posted on the MSSO Web site for general user comments beginning in June 2010.

Thank you for your continued support.

MedDRA MSSO
