

Become a Certified MedDRA Coder (CMC)

Regulatory agencies depend upon companies to submit accurate and complete MedDRA coded data. Becoming a Certified MedDRA Coder (CMC) demonstrates that you have the knowledge and skills to do this.

The Certified MedDRA Coder (CMC) examination is a rigorous, on-line examination to test your knowledge of the ICH-endorsed MedDRA coding guideline, the "[MedDRA Term Selection: Points to Consider](#)" document. Once you have taken and passed the examination, you will receive your Certified MedDRA Coder certificate which is valid for two years.

Enhance your preparation for the CMC examination. Attend the one hour Certified MedDRA Coder Examination Preparation webinar to **learn about common coding pitfalls** and details on the **examination format** and **registration process**. Registration fee for the preparation webinar is \$100 US.

To register, select the session of your choice:

- [Ideal for US West Coast: 11 November 1400 – 1500 US Eastern Standard Time](#)
- [Ideal for the UK and EU: 7 December 0900 –1000 US Eastern Standard Time](#)
- [Ideal for Asia and Australia: 14 December: 2130 – 2230 US Eastern Standard Time](#)

Are you ready to take the CMC examination now? Take a look at a [sample set of CMC examination questions](#) to help gauge your readiness.

There is no better way to demonstrate your MedDRA coding expertise than to become a CMC. To start your path toward CMC certification, please visit the [CMC Web page](#) or contact CMChelp@ngc.com.

Groups of 5 or more are eligible for the CMC Examination Corporate Discount. Contact CMChelp@ngc.com for details.

Good luck!
