

Reminder: Request for Comments on Proposed Complex Changes for MedDRA Version 15.0

Due 29 July 2011

Dear MedDRA User:

The MSSO has posted [proposed complex changes](#) for MedDRA Version 15.0 on our web site. Complex changes are any changes to the MedDRA hierarchy, i.e., the high level terms (HLT), high level group terms (HLGT), or system organ classes (SOC), that may impact your use of MedDRA. We encourage your comments (both for and against) these proposed changes so we understand their potential impact.

Please remember that the deadline for your response to these proposals is 29 July 2011. Please send your comments to MSSORequest@mssotools.com.

Thank You,

MedDRA MSSO
